STATE OF THE ART LAB

ADVANCED DIAGNOSTICS ENSURES RELIABILITY

OUR SERVICES

Parts Shop

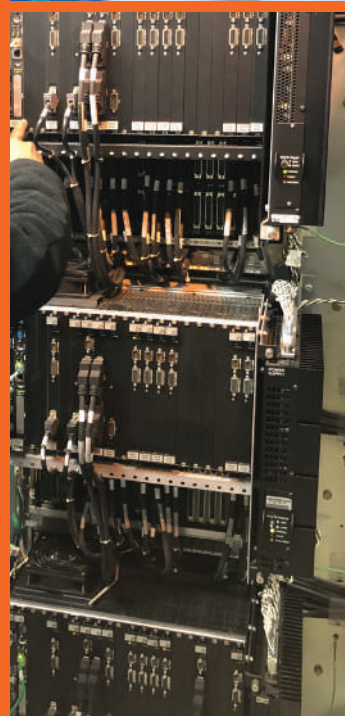

Offering a large inventory of Ready to Ship NEW and Refurbished circuit boards which is certified for functionality and reliability. Our Refurbished units are a better choice than the so called “New” units currently available in the market since our units undergo a complete overhaul and upgrade to meet or exceed industry standards.

Repair & Refurbish

With live panel for functional testing and advanced diagnostics, DTC can test and repair GE MK II, MK III, MK IV, MK V, MK VI, MK VIe, EX200, EX2100, GE Drive Controls, LCI, ABB, Bently Nevada, Woodward, Westinghouse, Ovation, Rolls-Entronics to name a few. Because of our reliance on OEM equivalent quality parts, our Repair/ Refurbished units meet or exceeds industry standards.

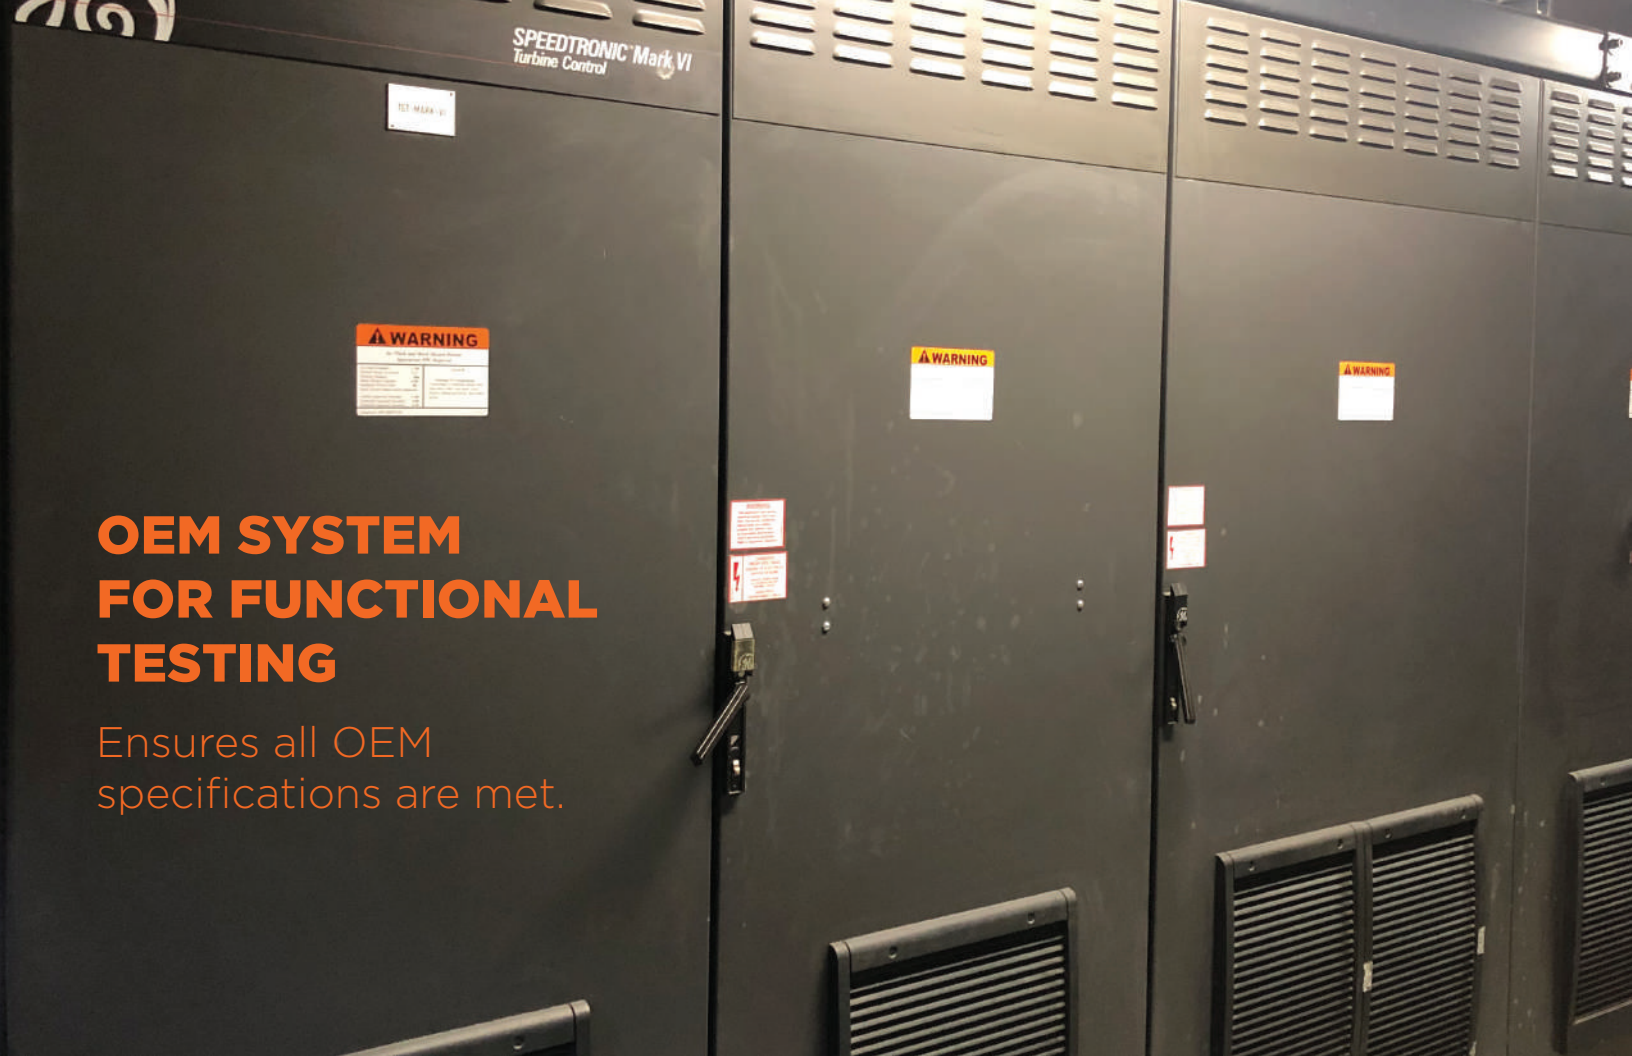

Test & Certify

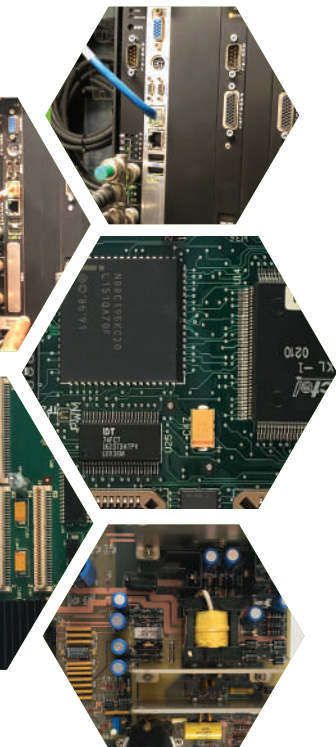

Are you concerned about the functionality of your spare cards because of long shelf life, sub optimal storage or mix up of old and new cards? Our Test & Certify service assures the functionality of the circuit board when they are needed the most. All OEM panel tested units come with a report showing the condition and recommendation for your circuit board.

OEM SYSTEM FOR FUNCTIONAL TESTING

Ensures all OEM
specifications are met.

Training programs

DTC In-house or On-site Training Services provide training that will help you maximize the efficiency of your equipment, minimize the costly mistakes that can jeopardize your plant, and build life-long skills. We offer a variety of training solutions for Gas, Steam and Aero product lines. Please call us or visit our site to find out about numerous training courses. Pick the training options that best meet your needs and experience the difference knowledgeable and well-trained employees can make.

Field Service & Maintenance

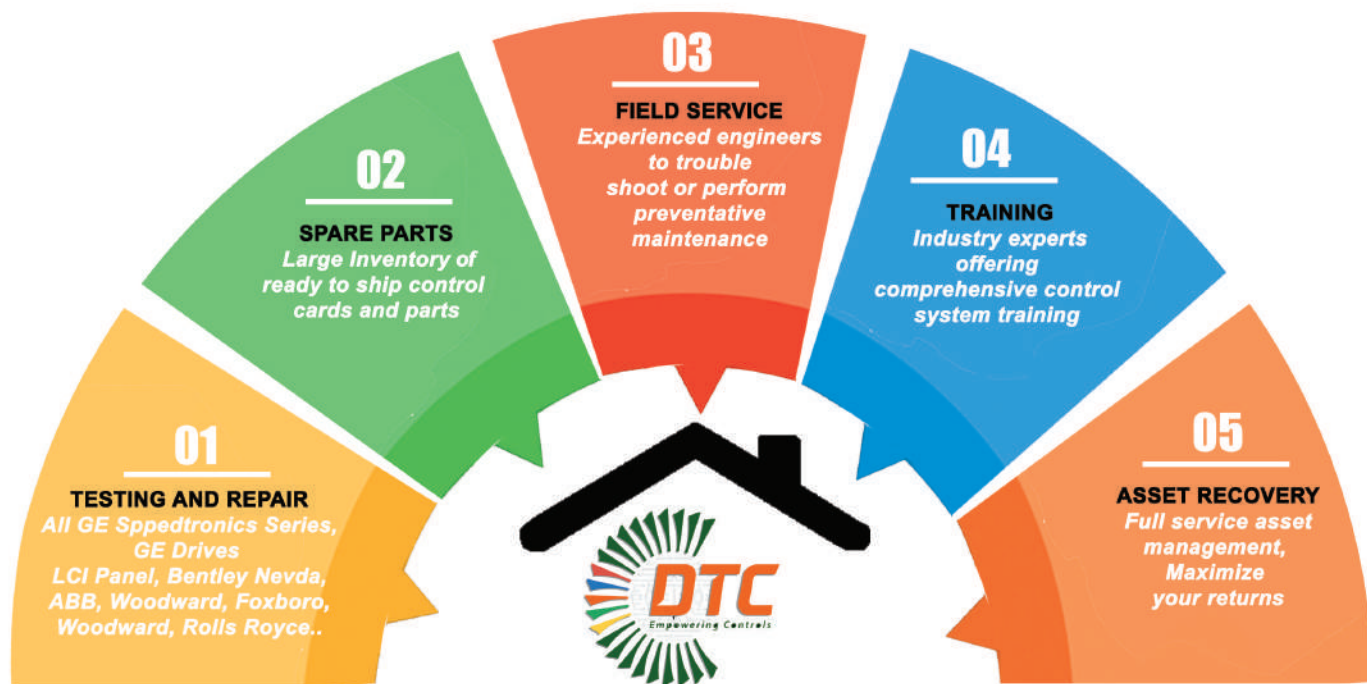

DTC offers friendly & expert field service for all GE Speedtronic series. Our Engineers are trained to offer high level of expertise and capability to make the maintenance period a rewarding experience.

IDos and HMI support

We can Upgrade, Repair or Refurbish your current HMI. We can rebuild/repair obsolete I Dos systems for GE MK V. Doing a routine maintenance on your existing HMI extends the life of these systems. We can also help you create a backup system of your HMI to avoid any down time or data loss in case of a system failure thus protecting you from planned and unplanned outage situations.

Asset Recovery

We provide full service asset management focusing on control systems and parts. We offer the best prices on the market. Our interest line includes: GE Speedtronic Mark I, Mark II, Mark III, Mark IV, Mark V, Mark V LM, Mark VI, Mark VI LM, Mark VIe, Mark VIe LM, EX2000, EX2100, EX2100e, LCI, Rolls Entronic, FT-50, FT-100, FT-110, Woodward, Netcon 5000, Bently Nevada, Bailey INFI 90
